## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <a href="http://www.uspto.gov/main/howtofees.htm">http://www.uspto.gov/main/howtofees.htm</a>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5-15-2003 has been entered.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 1-9, 19, 20, 38-56, 59-63 are allowed. The claims have been renumbered as 1-35.

The 112 first paragraph rejection is withdrawn in view of the amendment. Claim 20 has been amended to a method for treating inflammatory disease and claim 19 has been amended to a method of antagonizing the CCR5 receptor, support for which are found on page 1 of the specification. The claims as amended are now commensurate in scope with that of the objective enablement.

Urch (5968947) generically discloses the instant tropane compound. The instant triazolyl substituent, however, has not been specifically described by Urch. Motivation to modify the prior art compound by replacing the exemplified pyridinyl with a triazolyl to arrive at the instant is lacking.

Armour's huge genus of a CCR5 modulator compound (6586430) embraces the instant (column 143-167, claim 1). Although the triazolyl with generic substituents is described on column 167, claim 13, and a generic compound having a 3-methyl, 5-methyl- 1,2,4-triazolyl (one of 67 groups) is also described (claim 12, column 166, 5.4.10), a specific azabicyclo example containing a triazolyl moiety has not been described. The instant isopropyl substituent on the triazoyl has not been exemplified. Motivation to modify Armour's example by picking and choosing the particular substituents from the large genus of compounds to arrive at the instant 3-isopropyl, 5-methyl- 1,2,4-triazol compound is lacking.

Art Unit: 1625

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evelyn Huang whose telephone number is 703-305-7247. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Rotman can be reached on 703-308-4698. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4556 for regular communications and 703-308-4556 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
